| Affix cloth sample here. | | | |
| Affix fiber samples to the left of the box by sewing or gluing. | | H | +++ |
| | | | |
| Attach the cloth at the top edge only by sewing or gluing with white Elmer's glue (archival). In this way we can lift the sample to see | | | |
| the back as well as feel both sides. | | | |
| The suggested size for the sample is indicated by the dotted lines | | | |
| of the box. | | | |

Please print this form on card stock.

not necessary to fill in all of the blanks.

Spaces on this form are provided if you need them. It is

Helpful hints:

*EPI= Ends per inch

**PPI = Picks per inch

***Ends per dent =
